

**Chat-Step**: Panama based app. Chat-Step does not work with Law Enforcement Requests. Promotes as a meeting place for businesses. No security.

**Facebook**: Vastly becoming unpopular with youth, however they may still use it occasionally. Most kids use it appropriately.

**Apps that allow kids to hide inappropriate apps:**

**Keepsafe**- photos are hidden- icon may look like a calculator

**App Lock**- All apps that are being used are hidden

**Monitoring Resources-**

**Phone Sheriff**- you can monitor your child's account including text messaging remotely.

**Secure Teen**- It prevents cyber bullying and websites that children should not be on, you can check web history, where they have been and what apps they have been on.

**Gaggle**- Bloomington Illinois based company that provides educational products to school systems. The company also monitors what students are doing on social media.
